

Gemini Premium Sheet-fed ink From Universal Graphic Solutions

Gemini Premium is our optimum series for quality sheetfed inks. It is our best ink for intensity, misting and rub resistance. The Gemini Premium series is a modern, all-around series, designed for the widest possible field of applications. This series is suited for all types of printing presses, as well as for the most absorbent printing substrates. It is free of mineral oil and formulated on the basis of renewable raw materials. The Gemini Premium series is especially suited for pressrooms with different printing presses.

The Gemini Premium series is characterized by:

- Excellent runability
- Very good rolling
- Excellent ink/water balance
- High color intensity
- Very good rub resistance
- Very good misting properties
- 100% Eco friendly (free of mineral oil)
- No VOCs

The Gemini Premium series characterized by light fastness:

- Gemini Premium Yellow 5
- Gemini Premium Magenta 5
- Gemini Premium Cyan 8
- Gemini Premium Black 8

Due to the low misting properties of the Gemini Premium series, it can be used on high speed straight and perfecting presses. As an all-around ink series, Gemini Premium complies with all requirements of ISO-Norm 2846-1. Its intensity and dot sharpness allow the printer to meet all requirements of ISO-Norm 12647-2 in color, and also achieves an excellent neutral gray-balance.
