

TECHNICAL DATA SHEET

BLUE ECONOMY WASH

UGS-9677

DESCRIPTION

UGS-9677 was formulated to be a low cost blanket and roller wash product for use in sheetfed and web-cleaning applications. It is a specially sourced high quality but economical solvent blend, made specifically to UGS specifications to have optimum cleaning performance at the lowest cost.

DIRECTIONS FOR USE

BLANKETS: Apply UGS-9677 to water-dampened cloth, wipe blanket until ink is removed. Alternately mix with 30-50% for best results, follow with a clean dry cloth to wipe clean.

ROLLERS: Apply UGS-9677 directly to rollers, engage wash-up blade, allow ink to run off and repeat until ink is removed.

Finish with a water rinse on the rollers to remove water soluble residues.

PRODUCT NEED AND USAGE

For the printer not willing to sacrifice cleaning power, UGS-9677 offers the printer excellent cleaning performance at the most economical price. UGS-9677 is water miscible to provide the best overall cleaning performance of all press contaminants. It is compatible with press elastomers and equipment.

FEATURES

- Economical with excellent cleaning performance
- Non-damaging to blankets and rollers
- Water Miscible
- Pleasant Odor
